

Xero Training – For Accountants

Are your clients asking you about Xero?
Are your clients asking you how to process transactions in Xero?
Do you feel less than 100% confident with the answers you can give them?

We are now offering Xero Training sessions designed specifically for Accountants!

Here's what you'll get:

- Two, two hour sessions, onsite at your premises, with one of our Xero Certified Trainers. This is group training and can include up to 12 participants. We will cover a variety of topics, and give you tips and tricks that will make using Xero easy!
- Support for one month after your last session where you can email us your Xero queries, and we will respond with an online video showing you how to deal with it.

\$1397
